LUXURY SURFACES

Wood + resin

W-0612

How to actually play with wood and transparency? This company has a large collection of possible combinations of wood and resin, to create amazing effects with various designs.

Several ranges:

- Fusion, dedicated to resin in various shades casted in solid wooden strips.
- Routed fusion, the panels are carved in 3D.

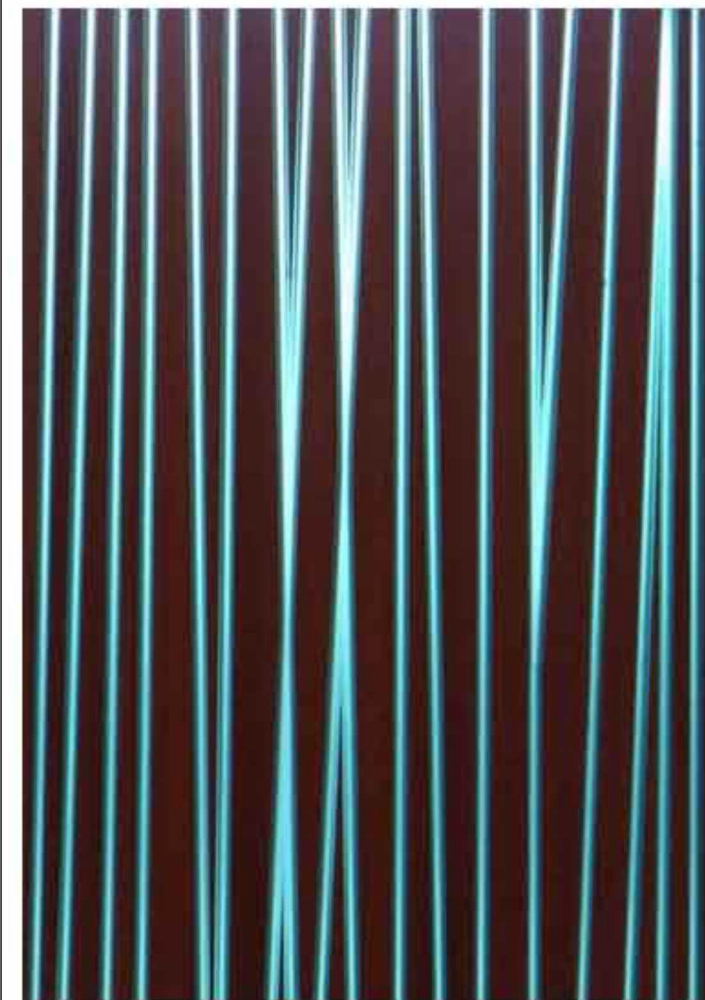

- Radiant&Intarsio, involves resin and wood to create intricated patterns.

The panels are made to order, the resin can be colored, the wood species can also vary.

SOLITAIRE

Wood, marble, and Solid surface + crystals

G-0707

Want to bring some bling to your boring daily life? One solution is to contact this company, which is specialized in the insertion of Swarovski® crystals in materials such as marble, wood, and Solid surface such as Corian®. The crystals can either be mounted on top of the desired substrate, appearing in relief, or be embedded into the substrate and covered with a high grade resin so that such combinations can even be used for flooring! Any design is possible... You just have to let your imagination fly!
